

James C. Vavasour
Group Marine Director/President
MatthewsDaniel Americas

James joined MatthewsDaniel in 2003, and is President of our Americas Region. In his operational role as Group Marine Director, he has overall responsibility for our marine services worldwide and manages technical and procedural review of major offshore installation projects, heavy-lift transports, and wet tows for the entire MatthewsDaniel group internationally. A graduate Naval Architect and a Texas licensed adjuster, he is also a member of the Royal Institute of Naval Architects and Society of Naval Architects and Marine Engineers. A recognizable face in the international insurance market, James serves on the organizing committee for the Houston Marine Insurance Seminar and is a founding member of the Society of Offshore Marine Warranty Surveyors acting as a liaison to the Joint Rig Committee. As an author, James is a regular presenter at major international conferences and has been published many times in the technical press. James is currently Chair of SOMWS.

Captain Stephen Norman
Senior Business Development Manager
DNV

Stephen is a Master Mariner with 20 years of operational and command experience in the Royal and Merchant Navy prior to moving ashore with Noble Denton marine services, part of DNV. Stephen sits on the Technical Standards Committee for DNV's Marine Warranty Standards and has been working extensively with the assurance of large-scale offshore construction, transportation and decommissioning projects. He is a founder Director of the Society of Offshore Marine Warranty Surveyors (SOMWS) as well as sitting on the IMCA Renewables Committee. Passionate on the role of marine warranty in the risk reduction process he has driven strategic engagement for integrated third-party assurance to ensure connected risk is fully understood and mitigations fully realised. More recently this has included extensive work with cyber risk and the use of big data and digitalisation. Stephen has regular liaison with the JRC regarding Technical Standards. Stephen is currently the Vice Chair of SOMWS and sits on the Standards Committee.

John Munnings-Tomes
Chief Risk Engineer
Marine & Energy International - The Hartford

After graduating in 1985, John has spent his career in the oil and gas sector with roles including process design, project management, process operations, and risk consulting. He has particular interest in lessons learned from the incidents he sees as part of his functional role, and their wider communication to industry, and particularly the importance of process safety culture within an organisation. A fellow of the IChemE, John is also the IChemE Trustee on The Hazards Forum, and is mindful of the need to share experience

S. Douglas Devoy
Sr. Marine and Engineering Consultant
MatthewsDaniel Company

Doug joined MatthewsDaniel in 1981 and is currently a Sr. Marine and Engineering consultant to the company. He has held a number of positions within the company including President of the Americas and Group Marine Director. A graduate of Texas A&M University in Marine Engineering he also attended Graduate Studies at Massachusetts Institute of Technology, a Texas licensed adjuster, and he is a member of the Society of Naval Architects and Marine Engineers.

<p>and process safety lessons across industries and engineering disciplines.
